

SCHLAGE
LiNK™

Put your clients
in control...
of everything.

The Schlage® Bridge is the brain of The Schlage LiNK™ Solution, connecting a Schlage® Wireless Keypad Lock or a Schlage® Wireless Keypad Deadbolt to the internet. From there the system can be customized to your clients' lifestyle with added Z-Wave components.

Schlage® Wireless Keypad Locks and Schlage® Wireless Keypad Deadbolts provide dependable security with the convenience of an electronic lock.

The Schlage® Light Module allows homeowners to control lighting from the Schlage LiNK™ Interface and expands the system's range to support multiple locks or additional Z-Wave devices.

The Trane® Remote Energy Management Thermostat integrates with the Schlage LiNK™ System to let users control the temperature of their homes while away.

The Schlage® Camera allows homeowners to remotely monitor activities within their home, allowing them to stay in touch and in control.

Ingersoll Rand Residential Solutions, a business comprised of well-known brands like Schlage and Trane, delivers safety, comfort and efficiency to homeowners throughout North America. Our quality products, services and solutions include mechanical and electronic locks, heating and air conditioning systems, indoor air quality solutions, advanced controls, portable security systems and remote home management.

Schlage LiNK™
Put your clients in control...
of everything.

Schlage can help build your business and diversify your customer base.

The Schlage LiNK™ Solution is more than just a lock – it’s an integrated home security monitoring system that allows you to build your business and your bottom line.

- Adding Schlage® locks to your product portfolio creates upgrade opportunities that will increase profit margins.
- The Schlage LiNK™ Solution allows you to offer security, home automation, energy management and video verification from a single source.
- Z-Wave is open architecture and is compatible with a host of other products from other manufacturers.
- Installation and set-up are quick and simple.
- New functionality and accessories will continually be added to the system, creating repeat business opportunities and expanding your customer base.

More homeowners trust Schlage.

When it comes to home security, Schlage is one of the names consumers trust the most for security and quality*. That’s because we have a 90-year history of providing innovative locks and world-class customer service.

Put your clients in control... of everything.

Now your clients can automate their home’s security quickly and easily from any internet-enabled computer and most internet-enabled cell phones. The Schlage LiNK™ Solution integrates Schlage® Wireless Keypad Locks and Deadbolts, Schlage® Cameras, Z-Wave-enabled Trane® Remote Energy Management Thermostats and other Z-Wave-enabled devices into a user-friendly system that lets homeowners keep track of who accesses their house and when. They can also control environmental comfort and check on what’s happening inside the home from one simple interface.

Home security just got smarter.

Common Challenges	The Schlage LiNK™ Solution
Forgotten or lost keys.	Use personal four-digit code or internet-enabled cell phones to unlock the door – never hide a key under the mat again.
Running late and need to let someone in.	Unlock the door remotely from a computer or mobile device.
Kids coming home from school by themselves.	Get a text message or email alert when family members enter a 4-digit pin at the lock.
Changing locks for new residents/ residents have lost keys.	Provide third parties with a unique code and delete it when they move out.
Managing the housekeeper, dog walker or other service persons.	Provide service persons with their own unique code; review when they arrived with the built-in event log, and delete the code any time.
Managing comfort and energy inside the home.	Manage the home’s HVAC and lighting system remotely from an internet-enabled computer and most internet-enabled cell phones.
